

## **AusIMM New Zealand Members FREE Access to Past Branch Conference proceedings**

### **Background Information**

From 1976 to 2018 the NZ Branch held an annual conference to promote the New Zealand minerals industry and the AusIMM and help meet the challenge of engaging Branch members spread throughout the country. The conference covered all aspects of exploration, mining and New Zealand's mineral resources and was attended by delegates from all sectors of the minerals industry.

The AusIMM New Zealand Branch have made papers from all past annual conferences (dating back to 1976) available to download free of charge.

The New Zealand Branch has since transitioned from this conference format to holding the annual Minerals Forum which serves the same purpose and includes all stakeholders in the NZ extractives industry.

### **How to access the papers**

Conference papers from 1971 onwards can be found online at the main AusIMM website <http://www.ausimm.com.au> by clicking here and searching for *New Zealand Branch Conference*
